I'm a local resident, father, husband and fisherman. I'm excited about our communities future and that future needs to give realistic opportunities to my 3 kids and the kids of our community.

Being a business owner in a local community has taught me many skills. Nothing has taught me more than the voice that is local community, a voice that cares what the future of our community should look like. I've been lucky enough to sponsor various clubs across our community and that voice is echoed within those community groups.

I'm passionate about people, those who know me will agree I'm always up for a chat, so much can be learnt through simple conversation. I'm only 36 and have learnt a lot and also have a lot to learn but I feel I have a strong connection with the younger generation and will continue to be a role model for them and our wider community.

I'm looking forward to the challenge that is in front of me and our community, lets all take on the challenge and let me be your voice.
