## **LAKE, Heather**

Since being elected to Council 2 years ago, I have attended many training sessions, meetings, and incredible community events. I have worked with the Shire to deliver the expectations of the community. During my many years in Exmouth, I have operated businesses on both land and sea, and now work in government. This background has proven valuable when contributing to a broad range of progressive concepts at Council.

In the future I will encourage growth and innovation without compromising the protection of our wildlife or unspoilt environment, because they support the quality of recreation and businesses of many electors. I am passionate about sustainable living and will promote Council strategies for better waste management, cheaper clean power, lower insurance premiums and more jobs.

As a re-nominating candidate, I remain intent in serving ratepayers and those that live and work here. In short, I want to save Ningaloo and It's people.
