I've been living in this beautiful town for the past 12 years with my wife & young daughter. I've been and continue to be heavily involved in the Exmouth community by volunteering for various associations. This has been a passion of mine throughout this time.

I hope to make a difference by establishing career pathways for our younger community with the vision of providing opportunities for their future within Exmouth.

As a rate payer and local business owner, I value the ideas and thoughts of our community members. If elected, I will listen and take an objective view.

I will be approachable and professional at all times. I'm committed to making the necessary hard decisions and/or having the discussions to get the job done.
