GILLESPIE, DAVID

My principal place of residence is Exmouth. I have resided in Exmouth since 2009 with the opening of the Exmouth Escape Resort.

As a member of the small business community within Exmouth, I have also taken an active role as the Vice President of the Exmouth Chamber of Commerce. My experience in the tourism industry and my background in building and construction has provided me with the opportunity to build a successful business within the township and also put money back into the town by utilizing local trades and hiring local people.

I would like to see initiatives for new building projects and infrastructure, like a new aged care facility, underground power, continued use of solar power panels for housing and a deep-water port. These types of initiatives will help local business and trades. I feel that these projects are achievable and Exmouth needs these to progress forward.
