PROPOSED AIRCRAFT TYPE(S), SCHEDULE AND TECHNICAL DETAILS

A/C Type	Day of week/date/Sector	Airfield (CIN/LMO/SGR)	Estimated Landing Weight (1,000kg)	Estimated Take-Off Weight (1,000kg)	ACN	Tyre Pressue (PSI)

By lodging this form the Requestor agrees to the following conditions:

- The requestor agrees they can operate at the air base within the level of infrastructure and airfield services and that the RAAF will not be expected to provide fuel or ground handling services.
- At RAAF Bases Learmonth and Curtin all ground handling requirements including Customs and quarantine must be directly arranged by the requestor with the applicable Airport Reporting Officer (ARO) listed in En Route Supplement Australia (ERSA).
- Any services provided to the operator that expend additional Defence resources will be recovered by Defence at full cost.

The requestor also agrees to the following conditions for the use of a RAAF Bare Base as an alternate:

- That a flight will only divert to a RAAF Bare Base if the primary destination becomes unavailable after the point of safe return, and that prior to the point of no return the aircraft will divert to a civilian airfield.
- In addition to the information provided in this application, the requestor must provide a minimum of 60 min notice to the ARO for activation of the airfield if an aircraft diverts. The minimum information required is:
 - ETA, and
 - expected duration of stop
- Normally no personnel or pax are to exit the aircraft. If the duration of stop is expected to require the off-loading of pax (eg. an overnight stop) the requestor must notify the ARO on initial contact.
