From humble beginnings as backpacker, working multiple jobs to now owning a home and two small businesses in town, I feel it's time for me to give back and help support our local community.

By encouraging a diverse economy new residents, families & businesses will be able to achieve their dreams in our special part of the world. Over the years I have developed a deep understanding of our seasonality & the challenges local businesses face. My experience has also seen me work for local government, not for profit organisations & sit on local committees. As a councillor, I hope to create a sustainable environment for our local community. We have made a choice to call Exmouth home, we have invested in this town & we want to see it thrive.

WHAT I STAND FOR:

Investment in upgrading towns utilities to keep up with system demand. Affordable housing inclusive for all wanting to call Exmouth home. Sustainability, usage and development of renewable energy. Access to Medical Services and Health Care.
