SAND EXCAVATION TANTABIDDI BOAT RAMP

The Shire of Exmouth advises that excavation works will occur at the Tantabiddi Boat Ramp, commencing on Tuesday, 27/02/2024, for two (2) to three (3) days.

Excavation works will be undertaken during appropriate low tide windows commencing at approximately 5:30 AM each morning for a likely duration of three (3) hours, or as conditions allow. During the operational hours of work each morning, access to the southern ramp will be restricted. Best efforts will be made to maintain access to the northern ramp during works.

However, the Shire asks that, where possible, launching prior to 8.00 AM on Tuesday (27/02/2024) and Wednesday (28/02/2024) is reconsidered or an alternative launching location sought.

The Shire appreciates the community's understanding and cooperation while these works are completed.
