The WA Local Government Association (WALGA) is working for Local Government in Western Australia. As the peak industry body, WALGA advocates on behalf of 138 WA Local Governments and negotiates service agreements for the sector. WALGA is not a government department or agency.

The WA Local Government Association was formed on 6 December 2001 to provide a truly representative and united voice for Local Government in WA. Prior to this, a number of membership-based representative structures existed to represent Local Government in WA.

The WALGA operational structure is comprised of a number of internal business units who undertaken either policy and advocacy work on behalf of the Local Government sector or offer services to assist Local Governments to perform their duties.

Our Governance structure comprises of our State Council and Zones. The structure of WALGA is designed to ensure we remain representative of our Member Councils. The structure also enables us to work efficiently and effectively in meeting our goals.

The WALGA operational structure is comprised of a number of internal business units who undertake both policy and advocacy work on behalf of the Local Government sector, or offer services to assist Local Governments to perform their duties.

WALGA State Council is the decision-making representative body of all Member Councils, who are responsible for sector-wide policy making and strategic planning on behalf of Local Government.

Zones are groups of geographically aligned Member Councils who are responsible for direct elections of State Councillors, providing input into policy formulation and providing advice on various matters.

Development Assessment Panels (DAPS)

As a key component of planning reform in Western Australia, Development Assessment Panels (DAPs) are intended to enhance planning expertise in decision making by improving the balance between technical advice and local knowledge.

Each DAP consists of five panel members, three being specialist members and two local government councillors.

Under the DAP regulations, each DAP will determine development applications that meet set type and value thresholds as if it were the responsible authority under the relevant planning instrument, such as the local planning scheme or region planning scheme. The DAP regulations state that DAP applications cannot be determined by local government or the Western Australian Planning Commission (WAPC).

The role of DAP members is to determine development applications within a certain type and value threshold through consistent, accountable, and professional decision-making.

A Mandatory DAP application is type of development application for the approval of a development outside the City of Perth with an estimated value of \$10 million or more.
