Shire of Exmouth

PUBLIC NOTICE

24 November 2023

RESIDENTIAL CYCLONE GREEN WASTE COLLECTION

The Shire of Exmouth is providing its free annual cyclone clean-up for residents. **Green Waste will be collected from Monday, 7 December 2026.**

THE LAST DAY TO ADD YOUR GREEN WASTE TO THE VERGE WILL BE 6 DECEMBER 2026!

To ensure the success of the clean-up, please adhere to the following standards:

- ✅ Council will collect ***green waste only***
- ✅ Green waste must be separated into different groups (i.e. bagged leaves, palm cuttings/fronds, branches, trunks). Palm fronds will not be mulched so please ensure they are kept separate for collection
- ✅ Council will not enter private property to collect waste. All items must be on the verge
- ✅ Tree pruning waste is to be no longer than 1.5 m and is to be separated from all other clean green waste
- ✅ Loose material such as leaves and other vegetation should be suitably wrapped, tied or placed in bags/boxes to prevent litter spread and to aid collection. Loose leaf litter will not be collected.
- ✅ Keep all green waste clear of fences, water meters, power poles, vehicles, trailers, Telstra pits, driveways, footpaths and gardens to ensure it is accessible for bobcats/loaders

❌ Loose leaf litter will not be collected.

⚠️ Green waste must be prepared to the above standards otherwise your green waste will not be collected. Other items on your verge will not be collected. You will be required to remove the items yourself.

If you have any enquiries, please do not hesitate to contact the Shire Works Depot on 9949 3080.
